

# AUTO RACING

The payoff on a winning selection varies according to the odds.

## EXAMPLE:

DRIVER	ODDS
Jimmie Johnson	+600
Kyle Busch	+800
Kasey Kahne	+5,000
Ryan Newman	+10,000

To wager on auto racing, you typically pick the winner of the race.

Typically, 20-30 drivers will be listed along with a "field" (all others).

For example, if the player wagers \$10 on Kyle Busch and he wins the race, the player wins \$80 plus their \$10 back totaling \$90.

## PROPOSITION WAGERS:

DRIVER	ODDS
Jimmie Johnson	- 130
Kyle Busch	+ 110

Auto racing match-ups pit two drivers against each other in a head-to-head wager. The driver with the better finish in the race wins the match-up. Sometimes multiple drivers are listed in a group where the best finish in the group wins the wager.

In the example, a wager on Jimmie Johnson for \$13 wins \$10, returning \$23. Wagering \$10 on Kyle Busch pays \$11 plus the wagered \$10 back for a total of \$21.

Other props may also be posted, such as the over/under on the number of cautions in the race or which car manufacturer wins.

Lines can be found on other series and open wheel races.

**SPECIAL NOTE:** Please reference our **"House Rules"** for specific rules governing the manner in which the outcome of each sport, event or contest (player or otherwise) is determined. These rules cover cancellations, overtime, conditions to win, conditions to tie, conditions to lose, refunds, parlay payment reductions and all other actions that affect the outcome of your wager.
